

SUSAN M. NATALI

Woodwell Climate Research Center
149 Woods Hole Road, Falmouth, MA 02540
508-440-1560, snatali@woodwellclimate.org

EDUCATION

B.S. Biology, Villanova University, 1991
Ph.D. Ecology and Evolution, Stony Brook University, 2008

PROFESSIONAL APPOINTMENTS

Arctic Program Director, Woodwell Climate Research Center, 2019-present
Associate Scientist, Woodwell Climate Research Center, 2015-present
Assistant Scientist, Woodwell Climate Research Center, 2012-2105
National Science Foundation (NSF) Polar Postdoctoral Fellow, 2010-2012
Postdoctoral Associate, University of Florida, 2008-2010

PROFESSIONAL INTERESTS AND EXPERTISE

- ◆ Ecological controls over cycling of carbon, nutrients, and contaminants
- ◆ Effects of permafrost thaw on Arctic biosphere-atmosphere exchange of greenhouse gasses
- ◆ Impacts of Arctic wildfire on vegetation, ground thaw, and carbon and nutrient cycling
- ◆ Ecological drivers of permafrost vulnerability and resilience to climate change
- ◆ Diversity, inclusivity, and equity in STEM
- ◆ Science-policy communications

CONTRIBUTED PAPERS AND DATASETS

- Lead or co-lead on >175 presentations at international science meetings
- Lead or contributing author on >40 openly available datasets archived at the Environmental Data Initiative, <https://environmentaldatainitiative.org/>
- Lead or contributing author on >35 openly available datasets archived at the Arctic Data Center, <https://arcticdata.io/>
- Lead or contributing author on 4 openly available datasets archived ORNL DAAC, <https://daac.ornl.gov/>

COMMUNICATION TO POLICY MAKERS (SELECT)

- UNFCCC Climate Change Conference (COP25), co-led Permafrost Day in the Cryosphere Pavilion, December 2019, Madrid
- Capitol Hill Briefing organized by Reps. Tonko and Castor, presented overview of Arctic carbon emissions (Natali et al. 2019)
- Arctic Circle Assembly, Plenary Session Panelist, Reykjavik, Iceland, October 2016
- UNFCCC Climate Change Conference (COP21), ICCI/WHRC Sponsored Side Event, *Thresholds and Closing Windows: Risks of Irreversible Cryosphere Climate Change*, Invited Speaker, 2015 Paris
- Contributor to International Cryosphere Climate Initiative (ICCI) report, *Thresholds and Closing Windows: Risks of Irreversible Cryosphere Climate Change*, December 2015
- Arctic Circle Assembly, Invited Speaker and Panelist, Reykjavik, Iceland, October 2015
- UNFCCC Bonn Climate Change Conference, SB42, ICCI Sponsored Side Event, *Cryosphere as a Lens for Paris: Science-based Urgency and Ambition*, Invited Speaker, June 2015
- Capitol Hill and State Dept. meetings, Washington DC. Met with staff from 6 Congressional offices and the House Science Committee, and Senior Arctic officials from the State Department for briefings on relevance of permafrost thaw for global climate, June 2015

MEDIA, OUTREACH, AND EDUCATION (SELECT)

- Program Director for [the Polaris Project](#), an undergraduate Arctic research program.
- Panelist for a virtual event for [Climate Week](#) 2020: *Arctic Permafrost Thaw: Science & Policy*.
- Interviewed by [Living on Earth](#) about the extreme climate events that occurred in the Arctic in the summer of 2020.
- Featured in [National Geographic article](#) on Siberian methane craters (2020).

Contributed to a multiple-award winning book, [The Big Thaw](#) (2019), about permafrost thaw and featuring stories of Polaris Project participants.

Worked with a film-maker on an award-winning documentary, [Permafrost Now,](#) (2018) that featured participants of the Polaris Project.

Worked with [The N.Y. Times](#) on a permafrost thaw article (2017).

Featured in news segment about permafrost thaw on [CBS This Morning](#), Oct 2017.

Interviewed for [Washington Post article](#) about permafrost emissions in the context of the Paris agreement, Dec 2015.

Press Event at Bonn Climate Conference, media coverage included: Agence France-Presse, which was picked up by >300 media outlets, June 2015.

PROFESSIONAL SERVICE & LEADERSHIP

Permafrost Carbon Network, (Working Group Lead/Member since 2012; Steering Committee since 2019)

NASA Arctic Boreal Vulnerability Experiment, Carbon Dynamics Working Group Lead (2016-2018) and Science Team Member (2016-2020)

International Arctic Systems for Observing the Atmosphere (IASOA), Atmosphere-Surface Exchanges Steering Committee (2016-2017)

American Geophysical Union (AGU) Biogeosciences Section, Outstanding Student Presentation Award Coordinator (2013-2018)

Associate Editor for Biogeosciences Special Issue, Changing Permafrost in the Arctic and its Global Effects in the 21st Century

Guest Editor for Environmental Research Letters, Resiliency and Vulnerability of Arctic and Boreal Ecosystems to Environmental Change: Advances and Outcomes of ABoVE (2017-2020)

PolarTREC Scientist (2011-2013, 2017); several ongoing collaborations with K-12 teachers

Reviewer for ~5-7 manuscripts/year; ~1-3 ad-hoc proposals/year; ~1 panel/year

GRANTS

Building an International Network of Ground Observations for the Arctic Carbon Monitoring and Prediction System, Woodwell Fund for Climate Solutions, 2020-2022, \$98K (lead PI)

Arctic Carbon Monitoring and Prediction System, Gordon & Betty Moore Foundation, 2019-2023, \$2,400K (Lead PI)

The Polaris Project: Catalyzing change in the Arctic research community, NSF IUSE, 2019-2022, \$1,421K (lead PI)

Developing a mechanistic understanding of decomposition of organic matter in frozen soil, NSF DEB, 2019-2021, \$171K (lead PI)

Accounting for permafrost carbon feedbacks in global climate policy: Estimates for gradual thaw, abrupt thaw, and wildfire, One Earth, 2019-2021, \$75K (Lead PI)

Mapping Methane Craters in the Arctic, Heising Simons Foundation, 2019-2021, \$148K (Lead PI)

Integrating science and Indigenous knowledge to support threatened Arctic communities, Woodwell Fund for Climate Solutions, 2019-2021, \$134K (Lead PI)

Establishing an Arctic Climate Change and Carbon Observatory, Woodwell Fund for Climate Solutions, \$180K, 2018-2020 (Lead PI)

Towards a northern pyrogenic carbon budget, Woodwell Fund for Climate Solutions, 2019-2020, \$49K, (J. Sanderman, Lead PI)

Understanding the causes and implications of enhanced seasonal CO₂ exchange in boreal and arctic ecosystems, NASA ABoVE, 2017-2020, \$1,379K (B. Rogers, Lead PI)

Polaris Project: Catalyzing demographic change in the Arctic research community through an immersive and sustained undergraduate research experience, NSF DUE, 2016-2019, \$1,448K (R. Holmes, Lead PI)

Winter respiration in the Arctic: Constraining current and future estimates of CO₂ emissions during the non-growing season, NASA ABoVE, 2015-2019, \$886K (Lead PI)

Mapping Hotspots for Methane Craters in the Siberian Arctic, NASA Novel Research, 2018-2019, \$42K (Lead PI)

Vegetation and ecosystem impacts on permafrost vulnerability, NSF Office of Polar Programs, 2015-2018, \$560K to Woodwell (\$1,270K total, Lead PI)

Fire regime influences on carbon dynamics of Siberian boreal forests. NSF Office of Polar Programs, 2013-2018, \$370K to Woodwell (\$800K total, H. Alexander, Lead PI)

The impact of fire on active layer thickness, NASA Rapid, 2016-2017, \$20K (K. Schaefer, Lead PI)

The carbon balance of Arctic River Deltas: Tundra fire as an agent of system change, NSF Rapid, 2015-2016, \$220K

Russian Visiting Scholars Program, Trust for Mutual Understanding, 2014-2016, \$12K

Developing a pan-arctic ecosystem respiration model, MBL-UChicago Collaboration Award, 2014-2015, \$25K, (E. Rastetter, Lead PI)

Effects of warming and drying on ecosystem carbon balance in Alaskan tundra. NSF Office of Polar Programs, 2012-2015, \$600K (Lead PI)

Vegetation permafrost dynamics in the context of changing climate. National Geographic Society, 2012-2014, \$21K (Lead PI)

FELLOWSHIPS & AWARDS

NSF, Polar Programs Postdoctoral Research Fellowship, 2010-2012

U.S. Permafrost Association, AGU Travel Grant, 2011

NSF, Graduate Research Fellowship, 2004-2008

NSF, Doctoral Dissertation Improvement Grant, 2007-2008

U.S. Department of Energy, Global Change Education Program Graduate Fellowship, 2006-2007

Association for Women in Science, Ruth Satter Predoctoral Award, 2006
